Please reject the NAB's petition 04-160. I feel that as a xm radio subscriber I have the right to recieve up to date traffic and weather. I still have a car radio, and when I want to listen to it I can. BUT I PAY FOR XM RADIO, I FEEL THAT THEY HAVE A RIGHT TO INFORM ME ABOUT WHAT IS GOING ON... If this petition is granted, I am not so sure I understand how the government would not be classified as supporting a monopoly. I pay a fee every month so that I can listen to what I want, I don't hink its fair that I have paid into a contract, and then they will be forced to stop broadcasting what I signed up for to begin with... thank you for your time...
